EXPERIENCE

Trackers Earth, Portland, OR — Front End Developer Intern

August 2016 - October 2016

Interned at Trackers Earth and worked with Sr. Developer and Designer on their new website to be deployed in 2017 using HTML, CSS and Javascript. Focused on coding their splash and front page, and multiple pop-out modals. Wireframed and prototyped multiples pages on a website that receives over 1500 views per day during the peak season.

City of Vancouver, Vancouver, WA — Event Coord Assistant

January 2013 - December 2015

Responsible for booking and coordinating events at Firstenberg Community Center over the phone and/or in person. Increased marketing and bookings by 15% over a period of 2 years. Provided customer service and all the information necessary to people interested in booking events.

City of Vancouver, Vancouver, WA — Camp Lead Staff

January 2008 - December 2012

Responsible for the overall running, management, and supervision of 15 staff members and 90 campers at Spark Camp. Organized staff schedules, scheduled field trips, and provided customer service.

PROJECTS

Portfolio—Front End Developer and Designer.

Take a look at some of the favorite projects I worked on during my time at school. I coded my portfolio using HTML, CSS, Materialize, and Javascript.
