EXPERIENCE

Trackers Earth, Portland, OR — Front End Developer

August 2016 - October 2016

I interned at Trackers Earth and worked on their new website to be deployed in 2017 using HTML, CSS and Javascript in the front end. Wire framed sketches using Sketch and prototyped using InVision. Worked closely with Sr. Developer & Designer to meet all weekly tasks and browser compatibility.

City of Vancouver, Vancouver, WA — Event Coordinator

January 2013 - December 2015

Tasks included: Booking of events at Firstenburg Community Center over the phone and/or in person. Marketing and increase bookings. Coordinating events. Provide customer service and all the information necessary to people interested in booking events.

City of Vancouver, Vancouver, WA — Camp Lead Staff

January 2008 - December 2012

Responsible for the overall running, management, and supervision of daily activities at SPARK Camp. Organized staff schedules, scheduled field trips, and provided customer service.

PROJECTS

Portfolio— *a place to find some of my favorite projects.*

This is my portfolio. I coded it using HTML, CSS, a new framework to me called Materialize, and Javascript.

[View project on the web.](#)
